UBER FOR THE COMPUTER

Think your server move is insignificant OR you simply don't know who to call?

"Data in Motion" is one of the major causes of a Data Spill or Breach.

Vanguard specializes in white glove, escorted relocations from Cloud to Cloud, Co/Lo to Co/Lo and other lift & shift activities for clients porting from host environments – all handled with the utmost security & care.

From as little as 1 USB key to 1 million tapes, single servers or the entire production infrastructure Vanguard always makes it happen!

Rack to Rack or Dock to Dock. You call, we haul.

TRUSTED 25 YEARS

WE ARE UBER FOR THE COMPUTER
